WHAT'S NEW?

EVEN WIDER CHOICE OF POLARIZED MODELS

We keep listening to your needs and wishes therefore we have extended our range of polarized lenses not only for sport but also for fashion models for children and adults.

WE THINK ABOUT NATURE

Certain models are made from CX ECO material that is ecologically 100% degradable and recyclable and at the same time material being as light, flexible and durable as other materials we use.

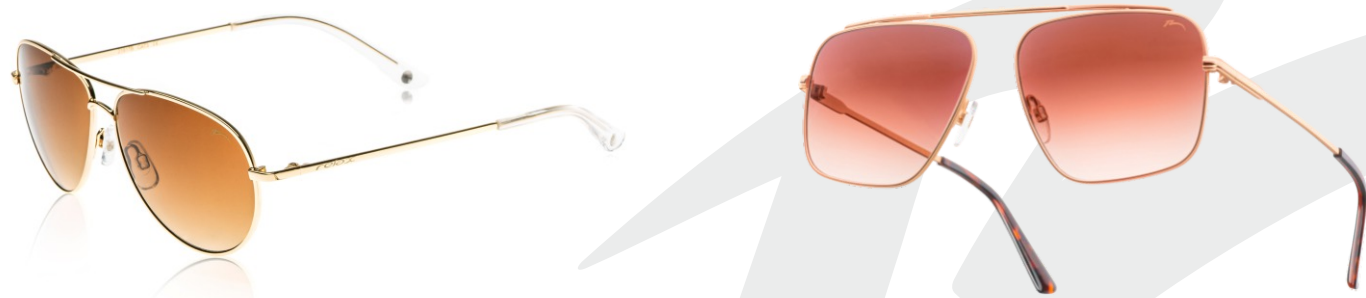

GRADIENT LENSES

Sunglasses shaded from top to bottom are very handy and comfortable. Moreover it looks fantastic, because it brings the depth of view into your face.

GOLDEN FRAMES

This time dominates the men's collection on frames. Combined with shading, these glasses are a celebration of elegance.

LOOK GREAT, FEEL SAFE

CAT EYES

The ongoing hot-trend in the seductive and refined shape of women's sunglasses is represented in this year's collection by a wider range of models.

SPORT ELEGANCE Quality materials and practical functions are must but not enough. Need a boost, striking style.

TITANIUM FRAME

Titanium frame sunglasses are light, stiff, and extremely elastic, flexible. Titanium sunglasses are also hypo-allergenic, meaning that this type of eyewear will not irritate your skin over time. Titanium glasses resist corrosion from facial acids, and retains its color much better than other types of metals used in sunglasses frames.

SUN CLIP FOR OPTICAL FRAMES

Elegant and practical solution to sunny days. Simply click on and go. From now on microfiber pouch protecting against scratches included.

TECHNOLOGY

TR90

Extremely light, yet very durable frame material with very light weight, superior elasticity and shape memory. It is very pleasant to touch and instantly adapts to the shape of the head. Thus, the sunglasses do not press anywhere and will last long.

CX ECO

CX is as light, flexible and durable material as TR90. Besides this material is 100% ecologically decomposable and recyclable. You will not only look good but you will also treat the nature thoughtfully.

POLARIZED

Proven technology reducing transmission of reflected light from horizontal surfaces such as snow, water or wet asphalt. Polarized lenses greatly increase visual acuity, reduce glare and eliminate annoying reflections. Polarization helps eyes to reduce their fatigue. Suitable for sport, driving, water activities.

PLATINUM LENSES

Lenses covered in a special abrasion resistant mirror layer which significantly reduces the amount of light reaching your eyes by simply reflecting most of it. This means less strain on your eyes, making it easier for you to see. You can choose from all colours of the rainbow. Besides the platinum treatment is wipe-resistant.

GRADIENT LENSES

Lenses shaded from top to bottom, where the upper part is darker and the lower part is lighter. Looking through such lenses is more comfortable, natural and handy e.g. while driving. They allow great sight, protect your eyes from the light from above while you see undistorted what is below you. They look fantastic and are elegant because they bring a certain depth to one's features.

SUNGLASSES

TITANIUM FRAME

Titanium frame sunglasses are light, stiff, and extremely elastic, flexible. Titanium sunglasses are also hypo-allergenic, meaning that this type of eyewear will not irritate your skin over time. Titanium glasses resist corrosion from facial acids, and retains its color much better than other types of metals used in sunglasses frames.

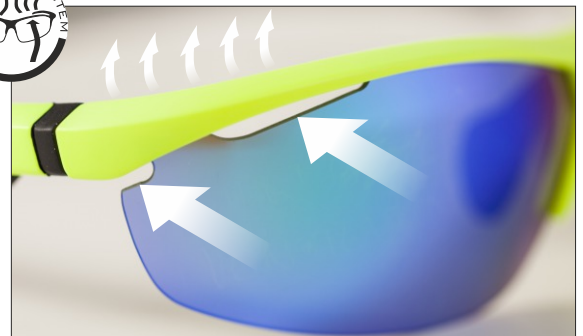

IMPACT PROTECTION

Almost unbreakable lenses material provides impact resistance and greater eye safety.

VENTILATION SYSTEM

System of ventilation vents allowing natural flow of air which prevents fogging of the lenses (or is cleared away during movement).

X-CHANGE

Special frame construction allowing an easy replacement of lenses. By exchanging the lenses you can adapt the sunglasses to actual light conditions.

NO FRAME

Allow unlimited view in all directions even when bending down.

TECHNOLOGY

ANTISLIP

Antislip tips and nose pads. Prevent slip sunglasses which holds perfectly on your face.

FLEXIPAD

Adjustable for almost any face shape. Provides more comfort by wearing, the nose pad can be adjusted to the shape of the nose.

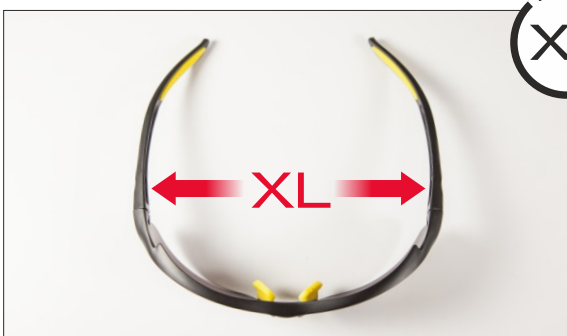

FLOATING

Sunglasses float in any water. Enjoy water without worries.

SOFT TOUCH

Velvety soft, very flexible and hardly stretched material. Very useful especially for kids collection.

SIZE XL

Sunglasses for larger and broader faces.

SUNGLASSES

SIZE XS

Sunglasses for smaller and narrower faces.

100% UV 400

100% protection against UV radiation A, B, C guarantee.

SOFT CASE

The soft microfiber cleaning pouch protect sunglasses against scratches. FREE with every pair of sunglasses.

CE - SAFETY PRO

Guaranteed safety of Relax sunglasses.

DESIGNED IN CZ

All Relax products are developed and designed in the Czech Republic.

LENS COLOUR

CLOUD grey
Universal use. Makes your vision brighter. High elimination of reflections.

These lenses are suitable for all weather conditions, especially then in bright light. With their soft tone they improve sight comfort in any situation.

BRONZE brown
Sharper sight. Reduces eyestrain.

These lenses absorb the natural blue light around us and help to sharpen the sight. The BRONZE tone was specially designed to provide greater contrast in low light conditions. These lenses help to reduce the eyestrain.

PARK green
Makes your vision brighter. Colour brightness.

Grey-green lenses sharpen the sight and eliminate colour distortion. They naturally block most of the blue light around us providing greater sight clarity and create beautiful colour contrast.

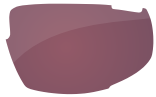

LUNAR orange
Universal use. Best for sport.

Popular colour for any sport activities because of its universality. Lets in greater spectrum of light and therefore is suitable for bright as well as for dark conditions.

AMBER yellow
Makes your vision brighter. Ideal for cloudy weather.

AMBER lenses increase the contrast and clarity of sight. These lenses are suitable for partly cloudy and cloudy weather.

ROSE pink
Universal use. High sharpness and contrast.

Truly universal lenses colour suitable for a wide range of light conditions. Pink colour maximizes the depth of sharpness and contrast.

CRYSTAL clear
Eye protection. Ideal for cloudy weather.

Total clarity makes it easy to see even in the darkest conditions.

SKY blue
Colour brightness. Eliminates reflections.

Creates beautiful colour contrast, improves colour perception.

MEN SUNGLASSES

HARRIS - R1143A

Exceptionally successful piece. Fit perfectly like no other pilots and look beautiful. They are exceptionally light thanks to the plastic frame. In gradient polarizing lenses this style guarantee perfect elegance and great vision.

FLEXIPAD

Adjustable for almost any face shape. Provides more comfort by wearing, the nose pad can be adjusted to the shape of the nose.

POLARIZED

Proven technology reducing transmission of reflected light from horizontal surfaces such as snow, water or wet asphalt. Polarized lenses greatly increase visual acuity, reduce glare and eliminate annoying reflections. Polarization helps eyes to reduce their fatigue. Suitable for sport, driving, water activities.

GRADIENT LENSES

Lenses shaded from top to bottom, where the upper part is darker and the lower part is lighter. Looking through such lenses is more comfortable, natural and handy e.g. while driving. They allow great sight, protect your eyes from the light from above while you see undistorted what is below you. They look fantastic and are elegant because they bring a certain depth to one's features.

SOFT CASE

The soft microfiber cleaning pouch protect sunglasses against scratches. FREE with every pair of sunglasses.

DESIGNED IN CZ

All Relax products are developed and designed in the Czech Republic.

100% UV

100% protection against UV radiation A, B, C guarantee.

CE SAFETY PRO

Guaranteed safety of Relax sunglasses.
